ACCIDENTAL SLIP & FALL LEADS TO PERMANENT INJURY

We all slip and fall even on dry floors. Ever imagined the grave danger hidden on wet floors? Water on all floors act as a medium which makes one lose grip.

UniPro brings you a unique anti-skid floor treatment which increases the friction & makes your wet floors non slippery, without changing the aesthetics of your tiles!

Enjoy fear free walks on wet and slippery floors by doing the anti-slip treatment on ceramic tiles, granite, marble, mosaic etc.

WHAT IS ANTI-SLIP TREATMENT ?

A nano technology treatment which reduces the risk and danger of slip and fall resulting in potential injuries, reputation loss, litigation costs, employee days loss, fatal falls and accidents on slippery areas. Anti-slip can be used on almost all hard surfaces, such as ceramic & vitrified tiles, porcelain, natural stones such as granite, marble, quarry tile etc.

FEATURES & BENEFITS

Transparent / No visible changes

Safety on all kinds of slippery floors

Enhanced aesthetics

Hygienic, no foul smell, no noise during application

Made from advanced Nano Technology

Most cost effective solution for slippery floors

Can be treated on existing floors without any appearance change

Application performed by trained professionals

APPLICATION AREAS

Kitchens, Wash Rooms, Shower Cubicles, Internal & External Stairs, Balconies, Swimming Pool Decks, Kids Play Areas, Lobbies, Cafeterias and High Safety Regions, any Frequently Wetted Areas and all kinds of floors exposed to rain.

HOW DOES ANTI-SLIP TREATMENT WORK?

Anti-slip floor treatment eliminates slippery floor problems by creating microscopic pores which are invisible to human eyes. Anti-slip treatment is not a coating, but a system that creates microscopic texture which increases SCOF* on the surface without losing the look or feel of your flooring.

* Static Coefficient of Friction

OTHER ANTISKID PRODUCTS VS. ANTI SLIP TREATED FLOOR

| Other Anti skid Products | Anti Slip Treatment |
|--|--|
| Anti slip tiles are often slippery on wet conditions | Anti slip Treatment not slippery in wet conditions |
| Anti slips lasts less than 6 months & is unhygienic | Anti slip treated floor lasts for years |
