WET AREA TREATMENTS & COATINGS

Why should “wet areas” of a structure be protected ?

Water is a source of life, without which human life cannot sustain. But for a concrete structure it is one of the most destructive element. Every concrete structure needs to be protected from the perils of water.

We at UniPro recognizes this and with our various specialized & unconventional wet area treatments, we help our clients protect their most valuable investments to last a life time.

Most Vulnerable Wet Areas

Wet areas are the part of a building that come in contact with water and thus substantially diminishes its life & aesthetics due to leakages and seepages. If not handled well, these areas can cause serious structural damages to your building. Few important wet areas are :

- ▶ Soil, Foundation Areas, Internal Floor Areas
- ▶ External Vertical Walls
- ▶ Work Areas, Toilets
- ▶ Open Balconies, Open Terraces and Slope Roofs
- ▶ Swimming Pools & Water Tanks
- ▶ Lift Pits and all kinds of Decorative Water Bodies

Major wet area services

Internal Floor Area Soil Treatment

Advantages:

- ◆ Ensures soil below the PCC area is dry.
- ◆ Reduces capillary rise of water on internal walls.

External Wall Treatment

Advantages:

- ◆ Permanent and long lasting water repellent walls.
- ◆ Eliminates existing & new creation of hair lincracks.
- ◆ Increased paint life by tight paint bonding to walls.

Work Areas / Toilet Treatment

Advantages:

- ◆ Arrests dampness on the lower portion of the toilet / balcony walls.
- ◆ Prevents damp roof slabs.

Open Balcony Treatment

Advantages:

- ◆ Prevents dampness on balcony roof slabs.
- ◆ Arrests dampness on the lower portion of the balcony walls.

Open Terraces / Slope Roofs

Advantages:

- ◆ Provides flat roof slabs with hydrostatic capability.
- ◆ Prevents dampness on roof slabs.
- ◆ Increased reinforced steel life.

Swimming Pools & Water Tanks

Advantages:

- ◆ Provides pool RCC Slabs with hydrostatic capability.
- ◆ Prevents water ingress & egress.
- ◆ Increased reinforced steel life.
