

Is your neighbour downstairs complaining????

Do you have leaking toilets?
Damp roofs??
Wet walls???

Are you wondering how to fix it?

Leaking Toilets ?...

Damp Roofs

Wet Walls

Are you wondering how to fix it????

Conventional Method:

1. Break existing tiles.
2. Do waterproofing.
3. Relay the tiles.

Total cost for this method-Over Rs. 40,000 to 45,000*/-

Other Headaches:

- Cement, Rubble, Dust etc all around.
- 5-6 days of work and toilet cannot be used until then.

*Note: Approximate cost for a toilet of 35 sqft - 40 sqft

Use the "Patented" nano technology based structural protection treatment to avoid all the above issues

Advantages:

1. No breaking or removing of existing tiles.
2. Faster work completion.
3. Dust free solution - No cement, rubble, dust etc in your premises!
4. Highly economical and cost effective.

360° Water Resistant Envelope
