ARE DAMP WALLS AND MOLD GROWTH WREAKING HAVOC ON YOUR LIVING SPACE?

Introducing our revolutionary service, designed to safeguard your home and your health.

Here's a comprehensive guide to the innovative technology and expert solutions that ensure your walls stay dry, free from fungus, mold, and the respiratory issues they can trigger. Explore how we transform damp walls into guardians of your health, and your living space into a sanctuary of well-being. Welcome to a future free from moisture-induced worries. Because UniPro® is your partner in creating a healthier, happier living environment.

WHY CHOOSE MOISTURE BARRIER TREATMENT?

Features

Can be applied on to a already damp surface

Very Hard membrane once cured & handles negative pressure (pressure from inside)

Doesn't allow paint or putty to get wet/flake or peel off in case of surface getting wet from inside

Long lasting, years of service

Can be overcoated with paint

Benefits

Healthier Living: Bid farewell to respiratory issues caused by mold and fungus. Breathe easy in a fresh, mold-free environment.

Home Bliss: Enjoy a comfortable, cozy, and dry home that you and your family deserve.

Mold Defense: Shield your walls from mold invasions and protect your property's value.

Experienced Experts: Our skilled professionals bring years of expertise to your service.
